

Reliability Iron Melting Furnace With 530 Melt Consumption 15%-20% Power Saving

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent; national testing report; quality management system
- Model Number: to be negotiated
- Minimum Order Quantity: 1 set
- Price: to be negotiated
- Packaging Details: wooden package
- Delivery Time: 20~45 days
- Payment Terms: T/T; L/C
- Supply Ability: 100000 sets/year

Product Specification

- Power Saving : 15%-20%
- Melt Consumption: Iron 530
- Safety : HIGH
- Reliability : High
- Melting Efficiency : High
- Power Factor: >95%
- Highlight: **Iron Melting Furnace,
Reliability Iron Melting Furnace**

Product Description

Product Description:

Product Description:

The Metal Melting Furnace by Huarui Furnace is a high-performance, efficient, and durable solution for metal processing. This furnace has been engineered with industrial applications in mind and is perfect for foundries, metal recycling plants, and manufacturing facilities. It is capable of melting various metals, such as steel, aluminum, copper, and more, making it an essential tool for the metal processing industry.

This furnace is designed to deliver exceptional performance, thanks to its state-of-the-art technology and expert craftsmanship. It is engineered to meet the rigorous demands of the metal processing industry and provide long-lasting durability. It is carefully crafted to ensure that it meets high standards of quality and performance.

The Metal Melting Furnace by Huarui Furnace is a reliable and efficient tool that can help you improve your metal processing performance and productivity. With its superior performance, efficiency, and durability, you can trust this furnace to deliver consistent and reliable results.

Applications:

The following are some of the applications where the products can be utilized:

Metal foundries

Recycling facilities

Metal casting workshops

Alloy production plants

Metal foundries require a range of products to aid in their manufacturing processes. These facilities use furnaces to melt and mold metal into different shapes and sizes. Our products can be used as a coating to protect furnace components from corrosion and oxidation. They can also be used as a welding and brazing agent to bond metal surfaces together.

Recycling facilities use various types of equipment to process and refine scrap metal. Our products can be utilized as a fluxing agent to remove impurities from molten metal during the recycling process. They can also be used as a coating to protect furnace components from corrosion and wear and tear.

Metal casting workshops use a combination of sand and metal to create intricate designs and shapes. Our products can be used as a binder to hold the sand together and as a releasing agent to ensure the finished product can be easily removed from the mold.

Alloy production plants require specialized materials to manufacture alloys. Our products can be used as a master alloy, a substance that is added to molten metal to create a specific alloy mixture. They can also be used as a coating to protect equipment components from wear and tear.

Customization:

Brand Name: Huarui

Model Number: to be negotiated

Place of Origin: China

Certification: patent; national testing report; quality management system

Minimum Order Quantity: 1 set

Price: to be negotiated

Packaging Details: wooden package

Delivery Time: 20~45 days

Payment Terms: T/T; L/C

Supply Ability: 100000 sets/year

Power saving: 15%-20%

Melting efficiency: High

Power factor: >95%

Safety: HIGH

Melt consumption: Iron 530

Support and Services:

Our metal melting furnace product comes with comprehensive technical support and services to ensure that you have a smooth and hassle-free experience. Our team of experts is always available to help answer any questions or concerns you may have about the product, its installation, and its operation. We also offer training services to help you get the most out of your metal melting furnace and ensure that you are using it safely and efficiently.

In addition to technical support and training, we also offer a range of maintenance and repair services to keep your metal melting furnace running smoothly. We can provide regular maintenance to help prevent any issues from arising and perform repairs if anything does go wrong. We also offer replacement parts and upgrades to keep your furnace up-to-date and functioning at its best.

With our metal melting furnace product, you can feel confident that you have access to the support and services you need to keep your operations running smoothly. Contact us today to learn more about our technical support and services.

Packing and Shipping:

Product Packaging:

1 Metal Melting Furnace

1 Graphite Crucible

1 Pair of Heat-resistant Gloves

1 User Manual

Shipping Information:

Shipping Weight: 12 kg

Shipping Dimensions: 45cm x 45cm x 45cm

Shipping Method: Standard

Delivery Time: 7-10 business days

FAQ:

Q: What is the brand name of the metal melting furnace?

A: The brand name of the metal melting furnace is Huarui.

Q: What certifications does the metal melting furnace have?

A: The metal melting furnace has a patent, national testing report, and quality management system certifications.

Q: What is the minimum order quantity for the metal melting furnace?

A: The minimum order quantity for the metal melting furnace is 1 set.

Q: What is the packaging detail for the metal melting furnace?

A: The packaging detail for the metal melting furnace is a wooden package.

Q: What is the delivery time for the metal melting furnace?

A: The delivery time for the metal melting furnace is 20~45 days.

Q: What are the payment terms for the metal melting furnace?

A: The payment terms for the metal melting furnace are T/T and L/C.

Q: What is the supply ability of the metal melting furnace?

A: The supply ability of the metal melting furnace is 100000 sets/year.
