

IGBT Dual-tube Module Medium Frequency Power Cabinet

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: ISO9001
- Model Number: 1600KW
- Minimum Order Quantity: 1 unit
- Price: USD5000-100000 per cabinet
- Packaging Details: Standard size:3.6*1.4*1.9, can be designed by the customer's room.
- Delivery Time: 15-30 days
- Supply Ability: 1000 per month

Product Specification

- Highlight: Dual Tube IGBT Power Cabinet, Medium Frequency IGBT Module Cabinet, IGBT Module Power Cabinet

Product Description

IGBT dual-tube module cabinet, eliminating the current-limiting inductor of thyristor inverter, widely save the consumption of power. The energy consumption will be cut over 5% compared with the thyristor cabinet.

IGBT dual-tube module cabinet is stable and reliable by adding protection device. One driver board drives one modular. The reliability is highly enhanced. Even there is a short circuit in the load end, sparking, steel bleeding-out, water cooling cable burning, it will not damage the cabinet. This also solves the problem of single-tube IGBT device bleaking one after another. It cut the maintenance cost greatly.

On practicality, IGBT dual-tube module cabinet is quiet,durable, strong overloading capacity. It need not special using environment. Using and maintain is easy.
