

## Copper Brass Heat Treatment Furnace with 1250°C Range

### Our Product Introduction

for more products please visit us on [melt-furnaces.com](http://melt-furnaces.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Copper And Brass Heat Treatment Furnace
- Certification: ISO9001
- Model Number: SDHR001
- Minimum Order Quantity: 1 unit
- Price: According customers volume
- Packaging Details: water proof packing
- Delivery Time: 30-45 days
- Payment Terms: TT/LC
- Supply Ability: 1000 sets per month

#### Product Specification

- Features: High Efficiency, Energy Saving, Easy Operation
- Heating Zone: Single Or Multiple
- Temperature Range: Up To 1250°C
- Warranty: 1 Year
- Atmosphere: Nitrogen Or Protective Gas
- Cooling Method: Closed Cooling Tower
- Application: Heat Treatment Of Copper And Brass Products
- Furnace Structure: Vertical Or Horizontal
- Highlight: **copper brass heat treatment furnace, 1250°C brass annealing furnace, high-temperature copper heat treatment oven**

## Product Description

### Product Description:

The Copper And Brass Heat Treatment Furnace is a high-quality industrial furnace designed for the precise heat treatment of copper and brass products. This furnace is meticulously engineered to provide efficient and reliable performance, making it an ideal solution for various heat treatment applications in industries such as metalworking, manufacturing, and research.

With the ability to operate in a controlled atmosphere of either Nitrogen or Protective Gas, this furnace ensures the integrity of the materials being processed. The atmosphere control feature plays a crucial role in preventing oxidation and ensuring the desired heat treatment results for copper and brass components.

The temperature range of this furnace extends up to 1250°C, allowing for the precise heating and cooling processes required for copper and brass materials. Whether it is annealing, stress relieving, tempering, or any other heat treatment process, this furnace offers the versatility to meet various temperature specifications with accuracy and consistency.

Backed by a comprehensive 1-year warranty, customers can rely on the durability and performance of this furnace for their heat treatment needs. The warranty provides peace of mind and assurance of quality, reflecting the manufacturer's commitment to customer satisfaction and product reliability.

Designed specifically for the heat treatment of copper and brass products, this furnace is suitable for a wide range of applications.

Whether it is the heat treatment of copper alloys, brass components, or the melting of copper and bronze materials, this furnace delivers the necessary temperature control and atmosphere regulation to achieve optimal results.

Customizable power supply options further enhance the flexibility of this furnace, allowing users to adapt the energy input based on their specific requirements. Whether operating at full capacity or optimizing energy efficiency, the customizable power supply ensures that the furnace can be tailored to meet diverse production needs.

In summary, the Copper And Brass Heat Treatment Furnace is a versatile and reliable solution for the precise heat treatment of copper and brass products. With its atmosphere control capabilities, wide temperature range, 1-year warranty, application-specific design, and customizable power supply, this furnace offers a comprehensive package for industries seeking efficient and effective heat treatment solutions.

### Features:

Product Name: Copper And Brass Heat Treatment Furnace

Heating Method: Induction Heating

Power Supply: Customizable

Type: Heat Treatment Furnace

Features: High Efficiency, Energy Saving, Easy Operation

Temperature Range: Up To 1250°C

### Technical Parameters:

Heating Zone	Single Or Multiple
Heating Method	Induction Heating
Features	High Efficiency, Energy Saving, Easy Operation
Warranty	1 Year
Chamber Size	Customizable
Control System	PLC Control System
Furnace Structure	Vertical Or Horizontal
Application	Heat Treatment Of Copper And Brass Products
Type	Heat Treatment Furnace
Material	Copper, Bronze And Brass

### Applications:

The **Copper And Brass Heat Treatment Furnace (Model: SDHR001)** is a high-quality industrial furnace designed for the heat treatment of copper and brass products. Manufactured in China, this furnace is certified with ISO9001, ensuring top-notch quality and performance. With a minimum order quantity of 1 unit and a flexible pricing structure based on customers' volume requirements, the Copper And Brass Heat Treatment Furnace offers great value for businesses of all sizes. The packaging details include water-proof packing to ensure safe transportation and delivery.

Customers can expect a delivery time of 30-45 days, and payment terms such as TT/LC are accepted. With a supply ability of 1000 sets per month, this furnace is readily available to meet industrial demands.

The furnace operates in a controlled atmosphere of nitrogen or protective gas, providing a stable environment for heat treatment processes. It offers a temperature range of up to 1250°C, making it suitable for a wide range of heat treatment applications.

Key application scenarios for the Copper And Brass Heat Treatment Furnace include copper heat treatment, brass melting furnace operations, and bronze melting furnace processes. The furnace is versatile and can accommodate various heat treatment needs for

copper and brass products.  
As a testament to its quality and durability, the Copper And Brass Heat Treatment Furnace comes with a 1-year warranty. Additionally, the power supply is customizable to meet specific voltage requirements, ensuring compatibility with different industrial settings.

**Customization:**

**Product Customization Services:**  
Brand Name: Copper And Brass Heat Treatment Furnace  
Model Number: SDHR001  
Place of Origin: China  
Certification: ISO9001  
Minimum Order Quantity: 1 unit  
Price: According customers volume  
Packaging Details: water proof packing  
Delivery Time: 30-45 days  
Payment Terms: TT/LC  
Supply Ability: 1000 sets per month  
Material: Copper, Bronze And Brass  
Temperature Range: Up To 1250°C  
Warranty: 1 Year  
Type: Heat Treatment Furnace  
Application: Heat Treatment Of Copper And Brass Products
