

Induction Heating Copper Brass Heat Treatment Furnace Up To 1250°C

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Copper And Brass Heat Treatment Furnace
- Certification: ISO9001
- Model Number: SDHR001
- Minimum Order Quantity: 1 unit
- Price: According customers volume
- Packaging Details: water proof packing
- Delivery Time: 30-45 days
- Payment Terms: TT/LC
- Supply Ability: 1000 sets per month

Product Specification

- Features: High Efficiency, Energy Saving, Easy Operation
- Heating Zone: Single Or Multiple
- Heating Method: Induction Heating
- Cooling Method: Closed Cooling Tower
- Power Supply: Customizable
- Application: Heat Treatment Of Copper And Brass Products
- Type: Heat Treatment Furnace
- Warranty: 1 Year
- Highlight: induction heating copper furnace ,
brass heat treatment furnace ,
high-temperature furnace up to 1250°C

Product Description

Product Description:

Constructed using premium materials such as copper, bronze, and brass, this furnace ensures durability and longevity, making it a valuable investment for any metalworking operation. The use of these materials not only enhances the furnace's structural integrity but also provides excellent thermal conductivity, allowing for efficient and uniform heating of copper and brass components.

The Copper And Brass Heat Treatment Furnace is equipped with a versatile heating zone configuration, offering the flexibility of single or multiple heating zones to accommodate various production needs. This feature enables precise temperature control and uniform heating distribution, ensuring consistent results across different types of copper and brass products.

Utilizing advanced induction heating technology, this furnace delivers rapid and efficient heating capabilities, significantly reducing processing times and enhancing overall productivity. The induction heating method generates heat directly within the material, leading to faster heating cycles and improved energy efficiency compared to traditional heating methods.

With a comprehensive 1-year warranty, customers can have peace of mind knowing that the Copper And Brass Heat Treatment Furnace is backed by reliable support and service. This warranty reflects the manufacturer's confidence in the product's quality and performance, providing added assurance to users seeking a dependable and long-lasting heat treatment solution.

Designed for the specific application of heat treatment for copper and brass products, this furnace offers a specialized solution tailored to the unique requirements of these materials. Whether it is annealing, tempering, or stress relieving, the Copper And Brass Heat Treatment Furnace provides the precise heating conditions needed to achieve optimal metallurgical properties and product quality.

Overall, the Copper And Brass Heat Treatment Furnace stands out as a top-of-the-line industrial furnace designed to meet the rigorous demands of the metalworking industry. Its exceptional build quality, versatile heating zone options, advanced induction heating technology, and reliable warranty make it an ideal choice for businesses looking to enhance their heat treatment processes for copper and brass components.

Features:

Product Name: Copper And Brass Heat Treatment Furnace

Features:

High Efficiency

Energy Saving

Easy Operation

Type: Heat Treatment Furnace

Heating Method: Induction Heating

Chamber Size: Customizable

Cooling Method: Closed Cooling Tower

Technical Parameters:

Application	Heat Treatment Of Copper And Brass Products
Atmosphere	Nitrogen Or Protective Gas
Power Supply	Customizable
Heating Method	Induction Heating
Features	High Efficiency, Energy Saving, Easy Operation
Type	Heat Treatment Furnace
Temperature Range	Up To 1250°C
Cooling Method	Closed Cooling Tower
Warranty	1 Year
Heating Zone	Single Or Multiple

Applications:

The Copper And Brass Heat Treatment Furnace, model SDHR001, is a top-of-the-line product originating from China and certified with ISO9001 standards. With a minimum order quantity of just 1 unit, this furnace offers flexibility to customers of all sizes. The price is determined based on the customer's volume, ensuring a fair and customized pricing structure.

When it comes to packaging, rest assured that the Copper And Brass Heat Treatment Furnace is securely packed in waterproof material to prevent any damage during transit. The delivery time for this product is estimated to be between 30-45 days, providing a balance between efficiency and timeliness.

Customers have the option to choose between TT or LC payment terms, adding convenience to the purchasing process. Additionally, the supply ability of this furnace is impressive, with 1000 sets being produced every month to meet the demands of various industries. Operating at temperatures up to 1250°C, this furnace utilizes induction heating as its primary heating method. The heating zone can be configured as single or multiple, offering versatility based on the specific requirements of the user. Furthermore, the power supply is customizable, allowing for seamless integration into different setups. Some key features of the Copper And Brass Heat Treatment Furnace include high efficiency, energy-saving capabilities, and easy operation. These attributes make it an ideal choice for a wide range of applications, including bronze melting furnaces, brass melting furnaces, and copper melting furnaces.

Customization:

Product Customization Services for the **Copper And Brass Heat Treatment Furnace**

Brand Name: Copper And Brass Heat Treatment Furnace
Model Number: SDHR001
Place of Origin: China
Certification: ISO9001
Minimum Order Quantity: 1 unit
Price: According customers volume
Packaging Details: water proof packing
Delivery Time: 30-45 days
Payment Terms: TT/LC
Supply Ability: 1000 sets per month
Atmosphere: Nitrogen Or Protective Gas
Application: Heat Treatment Of Copper And Brass Products
Power Supply: Customizable
Warranty: 1 Year
Heating Method: Induction Heating

Support and Services:

Our Copper And Brass Heat Treatment Furnace comes with comprehensive product technical support and services to ensure optimal performance and longevity. Our team of experts is available to assist with installation, troubleshooting, maintenance, and any technical queries you may have. We also offer training sessions to help your staff operate the furnace efficiently and safely. Additionally, our service team is equipped to provide on-site support and regular maintenance checks to keep your furnace running smoothly. Rest assured that our technical support and services are aimed at maximizing the efficiency and effectiveness of your Copper And Brass Heat Treatment Furnace, helping you achieve your production goals with ease.

FAQ:

Q: What is the brand name of this heat treatment furnace?
A: The brand name is Copper And Brass Heat Treatment Furnace.
Q: What is the model number of this heat treatment furnace?
A: The model number is SDHR001.
Q: Where is this heat treatment furnace manufactured?
A: This furnace is manufactured in China.
Q: What certification does this heat treatment furnace have?
A: This furnace is certified with ISO9001.
Q: What is the minimum order quantity for this heat treatment furnace?
A: The minimum order quantity is 1 unit.
