

## Iron and Steel Heat Treatment Furnace 0.5-20 Tons 1500-1700°C

### Our Product Introduction

for more products please visit us on [melt-furnaces.com](http://melt-furnaces.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: ISO9001
- Model Number: SDHR002
- Minimum Order Quantity: 1 unit
- Price: According customers volume
- Packaging Details: water proof packing
- Delivery Time: 30-45 days
- Payment Terms: TT/LC
- Supply Ability: 1000 sets per month

#### Product Specification

- Power Supply: 380V/660V/
- Max. Loading Capacity: 0.5-20 Tons
- Warranty: 1 Year
- Heating Zone: Single/Double/Multi
- Control System: IGBT/SCR
- Type: Heat Treatment Furnace
- Material: Iron And Steel
- Heating Method: Electric Induction Thermal
- Highlight: **Iron and Steel Heat Treatment Furnace 0.5-20 Tons**  
**, Steel Heat Treatment Furnace 1500-1700°C,**  
**Industrial Heat Treatment Furnace with**  
**Warranty**

## Product Description

### Product Description:

The Iron And Steel Heat Treatment Furnace is a high-quality industrial equipment designed specifically for the heat treatment of iron and steel materials. This advanced furnace is ideal for various applications in metalworking industries, providing efficient and precise heating processes to achieve the desired material properties.

As a specialized Heat Treatment Furnace, this product offers versatile heating zone options including Single, Double, and Multi zones. This flexibility allows users to tailor the heat treatment process according to the specific requirements of their iron and steel materials, ensuring optimal results and uniform heating throughout the treatment cycle.

Manufactured to meet the highest standards, this furnace is constructed to handle the unique characteristics of iron and steel materials. The durable design and reliable performance make it a valuable asset for industrial operations that involve iron heat treatment and steel heat treatment processes. Whether it is for annealing, hardening, tempering, or other heat treatment applications, this furnace delivers consistent and precise results every time.

With a temperature range of 1500-1700°C, this Heat Treatment Furnace provides the necessary heat levels to effectively process iron and steel materials. The ability to reach and maintain high temperatures ensures thorough and efficient heat treatment, allowing for the desired metallurgical transformations to take place within the materials.

Backed by a 1-year warranty, users can have peace of mind knowing that this Iron And Steel Heat Treatment Furnace is a reliable and durable investment for their operations. The warranty coverage protects against any potential manufacturing defects or issues, providing added assurance of the product's quality and performance.

In summary, the Iron And Steel Heat Treatment Furnace is an essential equipment for industrial processes involving iron heat treatment and steel heat treatment. Its precision heating capabilities, versatile heating zone options, high temperature range, and reliable performance make it an indispensable tool for achieving optimal results in metalworking applications. Whether for iron melting medium frequency furnace operations or other heat treatment requirements, this furnace is designed to meet the demands of modern industrial settings.

### Features:

Product Name: Iron And Steel Heat Treatment Furnace

Heating Zone: Single/Double/Multi

Cooling Method: Closed Cooling Tower

Control System: IGBT/SCR

Material: Iron And Steel

Warranty: 1 Year

### Technical Parameters:

Cooling Method	Closed Cooling Tower
Type	Heat Treatment Furnace
Temperature Range	1500-1700°C
Control System	IGBT/SCR
Material	Iron And Steel
Power Supply	380V/660V
Max. Loading Capacity	0.5-20 Tons
Warranty	1 Year
Heating Method	Electric Induction Thermal
Application	Industrial

### Applications:

The Huarui Iron And Steel Heat Treatment Furnace (Model: SDHR002) is a high-quality industrial furnace designed for iron heat treatment applications. Manufactured in China with ISO9001 certification, this furnace offers a temperature range of 1500-1700°C, making it suitable for a wide range of heat treatment processes.

With a choice of Single, Double, or Multi heating zones, this furnace provides flexibility and efficiency in iron heat treatment. Whether you require precise control with IGBT or reliable performance with SCR control system, the Huarui furnace can meet your specific needs. Customers can order a minimum of 1 unit at a price tailored to their volume requirements. The packaging details ensure safe transportation with waterproof packing, and the delivery time is estimated at 30-45 days. Payment terms include TT and LC, providing flexibility for customers.

The Huarui Iron And Steel Heat Treatment Furnace is ideal for various industrial applications, including iron melting, heat treatment, and furnace operations. Its supply ability of 1000 sets per month ensures timely delivery to meet high-demand scenarios.

Backed by a 1-year warranty, customers can rely on the durability and performance of this furnace for their iron heat treatment needs. Whether you are operating an iron melting medium frequency furnace or require precise temperature control for heat treatment, the Huarui furnace is a reliable choice.

### Customization:

Product Customization Services for the Iron And Steel Heat Treatment Furnace:

Brand Name: Huarui

Model Number: SDHR002

Place of Origin: China

Certification: ISO9001

Minimum Order Quantity: 1 unit

Price: According customers volume

Packaging Details: water proof packing

Delivery Time: 30-45 days

Payment Terms: TT/LC

Supply Ability: 1000 sets per month

Warranty: 1 Year

Control System: IGBT/SCR

Cooling Method: Closed Cooling Tower

Type: Heat Treatment Furnace

Max. Loading Capacity: 0.5-20 Tons
