

AC Medium Frequency Melting Furnace with High Energy Saving

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Hua Rui
- Certification: patent certificates; national testing report ; BPQC quality management system
- Model Number: HR0010
- Minimum Order Quantity: 1 set
- Price: Negotiation
- Packaging Details: waterproof packing
- Delivery Time: 30~45 days
- Payment Terms: T/T, L/C
- Supply Ability: 1000 sets/ year

Product Specification

- Maintenance: Low
- Durability: Long
- Name: Medium Frequency Melting Furnace
- Temperature Control: Precise
- Safety System: ISO9001
- Feature: High Energy Saving ; Smooth Operation; Low Noise
- Quality: Prime
- Power Supply: AC
- Highlight: **energy-saving medium frequency melting furnace**
, industrial medium frequency furnace,
high-efficiency melting furnace with warranty

Product Description

Product Description:

The Medium Frequency Melting Furnace is a top-of-the-line electric induction smelting furnace designed for efficient and reliable metal melting processes. With a focus on safety and quality, this furnace is equipped with an ISO9001 certified safety system to ensure a secure working environment.

One of the standout features of this copper melting furnace is its high energy-saving capabilities, making it a cost-effective solution for industrial applications. The furnace also boasts a smooth operation, providing consistent and precise melting results. In addition, its low noise operation contributes to a comfortable working environment for operators.

Powered by an AC power supply, this melting furnace is suitable for a wide range of metal melting applications. Whether you are working with copper, aluminum, or other metals, this furnace delivers reliable performance and consistent melting results.

With a focus on low maintenance requirements, the Medium Frequency Melting Furnace is designed for ease of use and minimal downtime. This ensures that your operations run smoothly without the need for frequent maintenance interventions, saving you time and resources in the long run.

When it comes to quality, this melting furnace is in a league of its own. Manufactured with prime materials and precision engineering, it meets the highest standards of quality and performance. You can trust this furnace to deliver exceptional results consistently, making it a valuable asset for your metal melting operations.

Features:

Product Name: Medium Frequency Melting Furnace

Quality: Prime

Durability: Long

Features:

High Energy Saving

Smooth Operation

Low Noise

Safety System: ISO9001

Temperature Control: Precise

Technical Parameters:

Durability	Long
Feature	High Energy Saving; Smooth Operation; Low Noise
Safety System	ISO9001
Power Supply	AC
Quality	Prime
Name	Medium Frequency Melting Furnace
Temperature Control	Precise
Maintenance	Low

Applications:

The Hua Rui Medium Frequency Melting Furnace (Model: HR0010) is a top-of-the-line induction smelting furnace that is perfect for a variety of applications in the metalworking industry. Manufactured in China, this product boasts a range of certifications including patent certificates, a national testing report, and compliance with the BPQC quality management system.

With a minimum order quantity of just 1 set and a negotiable price, the Medium Frequency Melting Furnace provides flexibility for businesses of all sizes. The waterproof packaging ensures that the product is well-protected during transit, and with a delivery time of 30 to 45 days, customers can expect a prompt arrival of their order.

Accepted payment terms for this furnace include T/T and L/C, making transactions convenient and secure. The supply ability of 1000 sets per year ensures that customers can rely on the availability of this high-quality product.

Operating on AC power supply, this melting furnace requires low maintenance, making it a cost-effective choice for businesses. The safety system meets ISO9001 standards, providing peace of mind to users.

Designed for efficiency and reliability, the Hua Rui Medium Frequency Melting Furnace is ideal for scenarios such as copper melting, aluminum melting, and other metal smelting processes. Whether it's for industrial applications or research purposes, this furnace delivers prime quality results every time.

Customization:

Product Customization Services for the Medium Frequency Melting Furnace:

Brand Name: Hua Rui

Model Number: HR0010

Place of Origin: China

Certification: patent certificates; national testing report; BPQC quality management system
Minimum Order Quantity: 1 set
Price: Negotiation
Packaging Details: waterproof packing
Delivery Time: 30~45 days
Payment Terms: T/T, L/C
Supply Ability: 1000 sets/year
Durability: Long
Power Supply: AC
Feature: High Energy Saving; Smooth Operation; Low Noise
Safety System: ISO9001
Name: Medium Frequency Melting Furnace

Support and Services:

The Medium Frequency Melting Furnace product comes with comprehensive technical support and services to ensure optimal performance and customer satisfaction. Our team of experts is available to provide assistance with installation, operation, and maintenance of the furnace.
Technical support includes troubleshooting guidance, training for operators, and remote assistance for resolving any issues that may arise during operation. Additionally, our service team offers preventive maintenance programs to extend the lifespan of the furnace and minimize downtime.
Our goal is to deliver reliable and efficient support to help our customers maximize the benefits of their Medium Frequency Melting Furnace investment.
