

## High Efficiency Steel Shell Melting Furnace with Short Melting Time

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: ISO9001
- Model Number: to be customized
- Minimum Order Quantity: 1 set
- Price: customerized
- Packaging Details: water proof
- Delivery Time: 30 days
- Payment Terms: LC/TT
- Supply Ability: 1000 set per month

#### Product Specification

- Temperature Accuracy: High
- Durability: Long
- Melting Time: Short
- Heat Efficiency: High
- Safety: High
- Energy Saving: High 10-15% Than Old Kinds Of Furnace
- Highlight: **steel shell melting furnace high efficiency ,  
short melting time steel furnace ,  
steel shell furnace with warranty**

### Product Description:

The Steel Shell Melting Furnace is a high-quality industrial furnace designed for melting metal efficiently and safely. With its steel shell construction, this furnace offers exceptional durability and longevity, making it a reliable and long-lasting investment for your melting needs.

One of the standout features of the Steel Shell Melting Furnace is its short melting time. This means that you can quickly melt metal and increase your operational efficiency, ultimately saving you time and resources in your production processes.

Furthermore, this furnace boasts high heat efficiency, ensuring that the melting process is fast and energy-efficient. The steel shell design helps to retain heat effectively, allowing for optimal energy utilization and reducing heat loss during operation.

When it comes to safety, the Steel Shell Melting Furnace excels in providing a high level of safety for operators and the work environment. The sturdy steel shell construction enhances safety by offering robust protection and minimizing the risk of accidents or malfunctions during operation.

In addition to its superior safety features, this furnace is also known for its high energy-saving capabilities. Compared to old kinds of furnaces, the Steel Shell Melting Furnace offers energy savings of 10-15%, making it a cost-effective and environmentally friendly choice for industrial melting applications.

Whether you are melting steel, aluminum, or other metals, the Steel Shell Melting Furnace is designed to meet your melting needs with efficiency and reliability. Its durable steel shell construction ensures that the furnace can withstand the rigors of continuous use, providing you with a long-lasting melting solution for your industrial operations.

Overall, the Steel Shell Melting Furnace is a top-of-the-line furnace that combines short melting times, high heat efficiency, superior safety features, energy savings, and long-lasting durability. If you are looking for a steel shell furnace for melting metal that offers exceptional performance and reliability, the Steel Shell Melting Furnace is the ideal choice for your industrial melting needs.

### Features:

Product Name: Steel Shell Melting Furnace

Temperature Accuracy: High

Safety: High

Energy Saving: High 10-15% Than Old Kinds Of Furnace

Durability: Long

Melting Time: Short

### Technical Parameters:

Heat Efficiency	High
Melting Time	Short
Temperature Accuracy	High
Durability	Long
Energy Saving	High (10-15% Than Old Kinds Of Furnace)
Safety	High

### Applications:

The Huarui Steel Shell Melting Furnace, manufactured in China, is a top-of-the-line product designed for various industrial applications. This melting furnace made of steel boasts high durability, energy-saving features, excellent heat efficiency, precise temperature accuracy, and superior safety standards. Certified with ISO9001, this product ensures quality and reliability in every use.

The Huarui Steel Shell Melting Furnace is suitable for a wide range of application occasions and scenarios, making it a versatile choice for different industries. Its high energy-saving capability, providing a 10-15% improvement compared to old furnace models, makes it ideal for companies looking to reduce operational costs and improve efficiency. The high heat efficiency of this furnace ensures optimal performance in melting various materials effectively.

This melting furnace is perfect for metal casting, foundries, and other manufacturing processes that require high-temperature operations. With its high temperature accuracy, users can rely on precise and consistent melting results, ensuring quality output every time. The safety features of the Huarui Steel Shell Melting Furnace provide peace of mind to operators, reducing the risk of accidents and ensuring a secure working environment.

Customers can benefit from the customizable model number, allowing them to tailor the furnace to their specific needs. The minimum order quantity of 1 set makes it accessible to businesses of all sizes, while the pricing is customized to offer flexibility. The water-proof packaging details ensure that the product arrives in optimal condition, ready for immediate use.

With a delivery time of 30 days, customers can quickly integrate the Huarui Steel Shell Melting Furnace into their operations. The payment terms of LC/TT provide convenience and security for transactions, while the supply ability of 1000 sets per month ensures a steady availability of this high-quality product.

### Customization:

Product Customization Services for the Steel Shell Melting Furnace

Brand Name: Huarui  
Model Number: to be customized  
Place of Origin: China  
Certification: ISO9001  
Minimum Order Quantity: 1 set  
Price: customerized  
Packaging Details: water proof  
Delivery Time: 30 days  
Payment Terms: LC/TT  
Supply Ability: 1000 set per month  
Temperature Accuracy: High  
Energy Saving: High 10-15% Than Old Kinds Of Furnace  
Melting Time: Short  
Durability: Long  
Safety: High

**Support and Services:**

The Product Technical Support and Services for the Steel Shell Melting Furnace include:

- Installation guidance and support
- Operational training for users
- Troubleshooting assistance
- Regular maintenance services
- Spare parts supply and replacement
- Upgrades and enhancements for improved performance

**Shandong Huarui Electric Furnace Co., Ltd.**
