

Closed Cooling Tower Metal Melting Furnace with Power Factor 95% and 15%-35% Power Saving

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent; national testing report; quality management system
- Model Number: MF2501
- Minimum Order Quantity: 1 set
- Price: Product customization
- Packaging Details: wooden package
- Delivery Time: 20~45 days
- Payment Terms: T/T; L/C
- Supply Ability: 100000 sets/year

Product Specification

- Reliability : High
- Melting Efficiency : High
- Control System: IGBT
- Power Saving : 15%-35%
- Power Factor: >95%
- Safety : HIGH
- Cooling System: Closed Cooling Tower
- Highlight: **Closed cooling tower metal melting furnace ,
Metal melting furnace with power factor 95% ,
Power saving metal melting furnace**

Product Description

Product Description:

The Metal Melting Furnace is a top-of-the-line electric furnace designed for melting metal with high reliability and safety features. This electric induction furnace is equipped with an advanced Control System utilizing IGBT technology, ensuring precise control over the melting process.

One of the key features of this electric furnace for melting metal is its high melting efficiency, allowing for quick and efficient melting of various types of metals. Whether you are working with gold, silver, copper, or other metals, this electric induction furnace is capable of handling a wide range of materials with ease.

When it comes to safety, this electric induction furnace excels with a high safety rating. The furnace is designed with safety in mind, incorporating multiple safety mechanisms to prevent accidents and ensure the well-being of the user. You can have peace of mind knowing that this furnace prioritizes safety at every step of the melting process.

In addition to its reliability and safety features, the Metal Melting Furnace also boasts a Closed Cooling Tower cooling system. This cooling system is highly efficient and helps maintain the optimal operating temperature of the furnace, ensuring consistent performance and prolonging the lifespan of the equipment.

Whether you are a professional metalworker, jeweler, or hobbyist, this electric furnace for melting metal is a versatile and dependable tool that can meet your melting needs. The combination of high reliability, safety, advanced Control System, high melting efficiency, and Closed Cooling Tower cooling system makes this electric induction furnace a top choice for anyone looking to melt metal with precision and ease.

Applications:

Whether you are working in a foundry, metal casting workshop, or jewelry making studio, the Huarui MF2501 electric induction furnace for metal melting is the ideal equipment for your melting needs. Its high melting efficiency and power factor of over 95% ensure cost-effective operation and energy savings.

For businesses looking to invest in a metal melting furnace, the Huarui MF2501 offers a minimum order quantity of 1 set, with pricing based on product customization. The packaging details include a secure wooden package for safe transportation and delivery within 20 to 45 days.

With a supply ability of 100,000 sets per year, Huarui Metal Melting Furnace is a reliable choice for companies requiring a high-quality electric induction melting furnace. The closed cooling tower system enhances the cooling efficiency of the furnace, further contributing to its safety and performance.

Payment terms for the Huarui MF2501 include T/T and L/C options, providing flexibility for customers to choose the most convenient method. Whether you are melting precious metals for jewelry production or industrial alloys for manufacturing, this electric furnace for melting metal is a versatile solution for various applications.

Customization:

Product Customization Services for the Metal Melting Furnace:

Brand Name: Huarui

Model Number: MF2501

Place of Origin: China

Certification: patent; national testing report; quality management system

Minimum Order Quantity: 1 set

Price: Product customization

Packaging Details: wooden package

Delivery Time: 20~45 days

Payment Terms: T/T; L/C

Supply Ability: 100,000 sets/year

Melting Efficiency: High

Reliability: High

Power Saving: 15%-35%

Control System: IGBT

Cooling System: Closed Cooling Tower

Support and Services:

Our Product Technical Support and Services for the Metal Melting Furnace include:

- On-site installation and setup guidance
- Troubleshooting assistance
- Maintenance and repair services
- Remote technical support for quick issue resolution
- Training sessions for operating the furnace efficiently

Packing and Shipping:

Product Packaging:

The Metal Melting Furnace is carefully packaged in a sturdy cardboard box to ensure safe delivery. The furnace is securely placed in the box with ample cushioning material to prevent any damage during transit.

Shipping:

Once your order is placed, the Metal Melting Furnace will be shipped within 1-2 business days. We use reliable shipping services to deliver your furnace to your doorstep in a timely manner. You will receive a tracking number to monitor the status of your shipment.

FAQ:

Q: What is the brand name of the metal melting furnace?

A: The brand name is Huarui.

Q: Where is the metal melting furnace manufactured?

A: The metal melting furnace is manufactured in China.

Q: What certifications does the metal melting furnace have?

A: The metal melting furnace has patent, national testing report, and quality management system certifications.

Q: What are the payment terms for purchasing the metal melting furnace?

A: The payment terms accepted are T/T and L/C.

Q: What is the minimum order quantity for the metal melting furnace?

A: The minimum order quantity is 1 set.
